The Advanced Reloading Techniques Seminar conducted by Hornady will show the hand loader how to make the best use of the precision reloading instruments available from Hornady such as the headspace gauge, concentricity tool, and others to take your hand loading to the next level in accuracy. Instructor Ben Syring \*Guest speaker TBD.

### **African Tips for Trips**

#### **Presented by Terry Blauwkamp and Anne Gaines-Burrill**

DSC's Reloading Editor, veteran of numerous African safaris and author of *African Tips for Trips*, Terry Blauwkamp, offers tips for the first timer or veteran safari hunter planning an African safari. Anne Gaines-Burrill from Air 2000 Hunters' Support will give you a rundown on the requirements of the South African Firearms Control Act and what you need to do to bring your own firearms to Africa.

### **Archery - Spot and Stalk**

#### **Presented by Todd Cast**

Many archers are starting to push the envelope and going after the game instead of letting the game come to them. While this untraditional hunting method is far from common today, it was the most utilized style of hunting long ago. Todd has been going after animals on foot for many years with many exciting conclusions, both successful and unsuccessful. This seminar will share trade secrets and hunting methods than can put you in archery range on some of the most amazing animals in the world!

### **Arrow and Broadhead Set-Ups for Bone Breaking & Complete Penetration**

#### **Presented By Todd Smith**

When bowhunting, don't take chances on equipment that *might* work. Keep the odds in your favor – "use enough arrow." This enlightening seminar teaches bowhunters how to select the right kinds of arrows and broadheads to set themselves up for success rather

than failure on all big game – especially tough ultra-big and dangerous game. You'll learn how to consistently break through bone and get complete pass-throughs

Learn why you may be getting poor penetration now and what to do about it. You'll see what works and what doesn't for bowhunting big game through and the science behind it with easy to understand images and simple demonstrations.

Find out how to get the penetration you've always wanted on any sized game including: elk, moose, bison, Cape buffalo and elephant. Every bowhunter that adopts these strategies will increase their odds of success – even when things go wrong.

### **Carter's War Season 2**

#### **Presented by Ivan Carter**

All of us know full well how critical big game hunting is to the conservation all big game species. We've done hunting television shows on the biggest hunting and outdoors networks and have espoused these benefits to millions of viewers. Still, sadly, the vast, vast majority of the general public have no idea how big game species survive and thrive today. They will NOT watch a hunting television show ... So what will they watch? How can we teach the masses about conservation on the front lines? Here's how ... Follow me down my new career path and into a whole new world of opportunity to truly make a difference in conservation.

### **Chronic Wasting Disease: The Sky is Not Falling!**

#### **Presented by Dr. James Kroll (Dr. Deer)**

It has now been 14 years since Chronic Wasting Disease (CWD) was first reported in southwestern Wisconsin. Since then, CWD has been diagnosed in a total of 23 states. This seminar will present an analysis of the \$50 million "eradication program of Wisconsin," the mistakes they made and what the program has revealed about the true nature of CWD and how this applies to CWD in Texas.

### **Designing and Building YOUR Trophy Room**

#### **Presented by Tom Julian**

This seminar will feature the practical aspects of how to design and build a space to present your "outdoor hunting lifestyle". We will approach the discussion from a builder's standpoint, focusing on the necessary structural, mechanical, and aesthetic aspects to make your trophy room a functional part of your home.

### **Field Medicine for Hunters**

#### **Presented by Caleb Causey**

During this presentation we will discuss which immediate life-threatening injuries

hunters experience most often. We will also discuss how we can prepare to deal with those injuries until professional help arrives. If time allows, the audience can participate in a skills practical.

### **Fierce Fishes of the Amazon**

#### **Presented by Paul Reiss**

An insightful description of how the Amazon, and its remarkable fishes, evolved. Anglers learn about the most exciting of the Amazon's 3,000 fish species and how to go about experiencing the excitement of catching them. Paul Reiss is an experienced Amazon guide. A PhD program has built his understanding of fish behavior while a lifetime of angling has honed his fishing knowledge. A question and answer period follows. Trip information and free newsletters are available.

### **First Time Safari: What to do before, during and after your hunt**

#### **Presented by Michael Coppersmith of Coppersmith Global Logistics**

We will be discussing details for first time hunters or those that have not been on safari in many years since changes in regulations. Our topics will cover what hunters should be concerned with before, during and after their hunts in relation to federal requirements and general tips for successful return of their trophies. We will cover what should be done before a hunt, during the hunt and post-hunt, specifically for proper clearances through U.S. Customs and Border Protection, U.S. Fish and Wildlife and U.S. Dept of Agriculture.

### **Freedom First Financial Seminar**

You'll discover proven diversification moves from Mike Fuljenz, one of the nation's top gold experts for over 30 years, and author and speaker, Forest Hamilton. This FREE 60 minute session is designed to help you understand smart diversification in today's economy, why gold is vital for long-term stability, how to plan your IRA, and more! Fuljenz will be autographing copies of the just-published latest edition of his award-winning reference book about U.S. gold coins, *Type III Double Eagles, 1877 – 1907*. Fuljenz also will give away complimentary copies of his Investors Precious Metals Kit, an informative guide that was honored as The Best Dealer Publication by the prestigious Numismatic Literary Guild (NLG) and recognized as The Best Brochure by the Press Club of Southeast Texas. Q&A to follow seminar.

### **Game Cameras from A to Z**

#### **Presented by Gil Lackey**

Trail camera expert and outdoor writer Gil Lackey will take you from the basics to advanced techniques never before seen. Find out how to choose the right camera for your specific needs. Learn photography, hunting and set-up tips. Although trail cameras

are still primarily used to help hunters bag their quarry, almost anyone can enjoy them. Learn how to use these cameras for security or to get high quality photos of common quarry like deer and turkeys but also many other species like foxes, coyotes, birds and bobcats. Find out what scents, lures or baits to use at different times of the year for many different species. Set the perfect scene with the right lure at the perfect time, and find out there's very little luck involved in getting interesting and even breathtaking images. Lackey will present a collection of his award-winning photos demonstrating the effectiveness of his innovative and mostly unpublished methods.

### **Glassing for Big Game: Choosing the Correct Optics**

#### **Presented by Tom Claycomb III**

I always say, "if you can't see it, you can't shoot it." I am amazed at how important good glassing skills are at finding game. Last year we took two gentlemen elk/deer hunting in the prized Owyhee Zone in Idaho. We spotted 5 bucks in the brush and while glassing, Twenty 4-wheelers/trucks passed on the 4WD road and never knew that they existed. Glassing really works but you need to learn the proper techniques in glassing in zones.

### **How to Sharpen Your Knife/Choosing the Proper Knife for the Outdoorsman**

#### **Presented by Tom Claycomb III**

You will be the hit of camp if you can sharpen a knife. You can even impress your guide. I have worked for over 30 years for most of the major Beef corporations and know exactly what to look for in a good skinning, caping or boning knife. There are a lot of selections on the market. I can show you which ones work best for certain jobs. You need to know the best shape/design, metal hardness etc. before making a selection. I'll help the attendees make that choice.

### **Hunt for the Table - Preparing, Smoking and Serving Wild Game**

#### **Presented by Smokin' Tex**

This Seminar will feature recipes and techniques designed to help the hunter enjoy and share his catch with others. Seminar will cover preparing wild game and fresh fish for smoking and slow cooking with an emphasis on Venison and Salmon, but covering many other foods as well. Additional techniques and recipes will discuss the benefits of smoking game and also include the preparation of sausage, jerky, curing hams/bacon and cold smoking.

### **Buffalo**

#### **Presented by Craig Boddington**

Africa's best hunt! Despite issues with other members of the Big Five, buffalo hunts remain available and relatively affordable in several countries. The where, when, how and why of buffalo hunting today.

### **Hunting Coues Deer: The Gray Ghost**

### **Presented by Dan Adler**

Jack O'Connor considered Coues whitetail deer "the most difficult of all deer to kill". Hunting a Coues deer today is the epitome of a classic western big game hunt spot and stalk glassing hunt. DSC is proud to welcome back USAF Veteran Captain Dan Adler, owner of Diamond Outfitters of Arizona and co-host of The Best of the West TV, to share with us the tactics that have led his clients to a nearly 100% harvest rate on these wary deer. Tips on shooting, glassing, judging score and more with time for Q and A. A DSC favorite over the years!

### **Hunting Giant Bull Elk of the Southwest**

#### **Presented by Dan Adler**

For many hunters, the bugle of a fired-up, rutting bull elk is the sweetest sound in the woods! In this seminar we welcome back USAF Veteran Capt. Dan Adler, owner of Diamond Outfitters of Arizona and co-host of The Best of the West TV to share with us top strategies, secrets and tips that separate successful giant bull hunters from tag soup connoisseurs! Get there early-standing room only last year!

Vicki and Gil Ash of OSP Shooting School Come and see the new HD Shot Kam Kill Shots on doves in Argentina as well as other game birds and learn how you can be a better harvester of game birds and learn how to shoot your shotgun more efficiently.

### **Increase the chances you come back alive after your next hunt**

#### **Presented by Global Rescue**

You've heard stories about the hundreds of injured or sick hunters Global Rescue has helped over the years. Now learn from Global Rescue's operations personnel how you can improve your chances of returning home safely from the field.

Drew Pache, Global Rescue's Manager of Security Operations and retired U.S. Army Special Forces Lt. Colonel and combat veteran, advises hunters on what to pack to improve the chances they come home from the field in one piece. The right equipment in the field will not only keep you alive; it will also keep you comfortable and allow you greater enjoyment of your trip.

Joe Mroszczyk, Global Rescue's Manager of Intelligence Products and Services and Intelligence Officer in the U.S Navy Reserves, discusses how to identify and prepare for travel risk by destination: itinerary planning, how to debunk government "travel warnings," leverage GRID<sup>SM</sup> (the world's only integrated travel risk, intelligence delivery and crisis response management platform) and Global Rescue's mobile app.

Learn from Global Rescue's operations and intelligence personnel what to pack for the outdoors, and how to travel safely in an increasingly unpredictable world. A must attend seminar!

### **Introduction to Reloading Clinic (Basic rifle and pistol reloading techniques)**

#### **Presented by Hornady**

Breaking down the fundamentals of single stage cartridge reloading. This includes the basic use of a Hornady Classic reloading kit, descriptions of how to utilize the tools included as well as tips to look for when getting started in hand loading.

### **Knowing the Right Way to Skin and Prep Your Trophy Can Make a Big Difference in Ensuring the Best Mount Possible**

#### **Presented by Jonas Brothers Studios of New York**

The Pepi Family's *Jonas Brothers Studio* has been at the forefront of taxidermy since 1908. Over the years, we often get asked the same questions by clients regarding what to do with their trophies in the field and once the mounts are hanging in their trophy rooms. This seminar will examine how to care for your trophy in the field, including: the correct way to skin and prep, how to turn your animal's face, where to cut when skinning for a shoulder vs. life-size mount, proper feet preparation, and more. We will also go over how to take care of your trophies when they are at home. Knowing the right way to skin and prep your trophy can make a big difference in ensuring the best mount possible, and proper trophy care will make your mount last a life time.

### **Lethal Compassion: Defend Hunting Better By Analyzing the Minds and Motives of the Anti-Hunter**

#### **Presented by Michael Sabbeth**

Hunters are accused of having no compassion for animals. Hunters are called murderers of animals. Hunters are accused of trophy hunting with the loathing as if they were molesting children. Aggressive people attack hunters and hunting verbally and openly; social media presents an unceasing cascade of negative information and anti-hunting stereotypes. Words matter. Attorney, lecturer and author Michael Sabbeth will show how to take apart the anti-hunting arguments and policies and reveal their actual lethal consequences in real life. Feeling good is not doing good. Good intentions kill animals. Methodically analyzing examples of anti-hunting attacks, including Cecil the Lion, the attacks on the 2014 Black Rhino hunt in Namibia, the deaths of animals in Gunnison, Colorado, European Union bans, United Nations policies and airline bans on animal products, Michael Sabbeth will show how anti-hunting beliefs and policies are killing the game animals. He will show how to make the case that hunters are the people with compassion and why their commitment and dedication will preserve and conserve game animals. The easy orthodoxy and cheap morality of the anti-hunter is more lethal to animals than all the hunters combined. Michael Sabbeth will show how to

analyze the anti-hunting rhetoric and policies in order to craft and persuasively present the most effective arguments to advance and defend hunting

### **Long Range Hunting and Ethics with The Best of the West**

#### **Presented By Dan Adler**

Long range rifle system technology has forever changed the way many hunters operate. The Dallas Safari Club welcomes back USAF Veteran Captain & “Expert Marksman” Dan Adler. Dan is the owner of Diamond Outfitters of Arizona & co-host of one of the most popular programs on The Outdoor Channel, *The Best of the West*. Join Dan for a candid conversation on the ethics of, and the specific techniques and training required to be an expert hunter at ranges “Beyond Belief”.

### **Managing Wildlife & Property through Food Plots**

#### **Presented by Paul Cwiklinski**

For 54 years, Paul Cwiklinski has been a deer hunter, and the past 26 years Paul has applied his unique method of food plotting for property and game management. Paul will offer insightful food plotting tips and the methodology to grow hearty vegetation. He will also show simple but successful ways to attract, grow and hold big bucks and other wildlife on your property. Regardless of the acreage, tangible results can be achieved the first year. All hunters are going to want to attend and learn the aspects of wildlife management through food plots.

### **Packing and Planning Tips For Your Next International Hunt**

#### **Presented by J. Alain Smith, Weatherby Award Winner, Conklin Award Winner**

Join J Alain Smith who has successfully taken over 355 different species of game, and hunts overseas more than 200 days per year, as he gives you some hands-on tips for planning and packing for your next trip. This seminar is interactive so bring your questions about any destination, whether it's a safari or a mountain hunt, swamps or desert, he's been there and done that and will be happy to assist you. Suggested packing lists will be available for all types of hunts, air travel tips, traveling with firearms hints, and what to take where ideas. Knowing Alain there may be a few laughs as well!

### **Producing Trophy Whitetails: What We Have Learned from Four Decades of Research**

#### **Presented by Dr. James Kroll (Dr. Deer)**

Dr. Kroll will discuss what we have learned that really works regarding the three tenets of White-tailed Deer Management--population, habitat and people management. In addition, he will discuss how you can landscape your property for white-tailed deer.

### **Rowland Ward in the 21st Century/Measurement Seminar**

#### **Presented by Ludo Wurfbain**

This seminar will have many new and revealing items on the future of the Rowland Ward record book, the measuring methods, the new entry forms, website as well as the plans for the 30th edition to be published in 2018 with numerous improvements and modifications.

The Rowland Ward Guiding Principles will be discussed and evaluated. Only ethical and sustainable hunting that encourages conservation, and involvement of the local people will be viable in the 21st century, and RW shall lead the way on this front. These Guiding Principles will encourage the fair chase sportsman/woman.

Attendees can also anticipate learning about:

- The new entry forms for measuring methods will be explained: learn how to fill out your entire entry online without ever touching paper!
- The 30th edition of the record book is coming, what is going to be new? Hint: do not forget your camera on your next hunt.
- The most detailed RW measuring instructions manual to date will be discussed.
- Rowland Ward is on the web, learn how it will make your interaction with RW that much easier and quicker.
- What is going to happen with the “Rest of the World” book come 2018?

All RW measurers should attend, as well those interested in African hunting and conservation. If you are considering becoming a RW measurer this course is a must.

### **Safari Destination Namibia!**

#### **Presented by Marina Lamprecht, Hunters Namibia Safaris**

Marina Lamprecht is a widely published writer, and presents talks throughout the world on Namibia's conservation successes, due to the country's policy of selective, ethical and sustainable utilization of wildlife resources, for which she has won international awards. Marina co-owns and personally manages Hunters Namibia Safaris with her husband, Professional Hunter Joof Lamprecht. They are based on their vast wildlife reserve in eastern Namibia. She is also involved in education projects all over her country, and is chairperson of the Lazarus Shinyemba Ipangelwa Foundation.
