Blaser USA, Inc. has generously donated an exclusive 250th Anniversary Edition John Rigby & Co. .416 Rigby Bolt Action Big Game Rifle and a VIP ticket to the Rigby 250th celebration in the UK. This exclusive 250th anniversary edition John Rigby & Co. .416 Rigby Bolt Action Big Game Rifle, is a testament to Rigby's unparalleled craftsmanship and legacy in best quality firearms. Designed on the iconic Mauser M98 Magnum action, the rifle features an elegant and durable flame-blued extractor and bolt release springs, along with a magazine floor plate that completes its classic appeal. The .416 Rigby caliber speaks to the rifle's purpose as a formidable big-game companion, offering both power and precision. The 24-inch barrel, finished with a plasma nitride finish has a fixed front sight regulated at 65 yards, while two folding leaf sights are perfectly calibrated for 150 and 250 yards, ensuring optimal accuracy across varied distances. Completing its setup, a single trigger and three-position safety offer precise control and smooth operation in any hunting situation. Beautifully grained, the Grade 7 Walnut stock showcases deluxe craftsmanship with a traditional pistol grip shape, grip cap, and silver oval inlay, embodying both elegance and durability. Finished with a 3/4-inch traditional rubber recoil pad, the stock has a total length of 14 1/2 inches, providing a comfortable and stable shooting experience. The rifle's artistry is further highlighted by its custom engraving, featuring a unique 250th Edition floor plate, a gold-inlaid serial number on the trigger guard, and the exclusive 250th Edition Rigby seal logo on the bolt. Additionally, a distinctive '250' marker engraved on the rear sight underscores its status as a collector's piece.

Enhancing the prestige of this offering, the lot includes a unique, money-can't-buy VIP ticket to John Rigby & Co.'s 250th anniversary celebration at the historic Portsmouth Dockyard in the UK. This exclusive event will be hosted in May 2025 aboard the legendary HMS Victory, the 250-year-old flagship once captained by Lord Admiral Nelson, who, in a fitting historical coincidence, was born the same year as John Rigby, the company's founder. This unparalleled opportunity adds a remarkable layer of historical and cultural significance, making this lot a rare investment in legacy and history. With only 250 in production, this rifle, is not merely a functional firearm but unique piece of history. Housed in a lightweight canvas case, it promises to be an exceptional addition to any collection, appealing equally to seasoned hunters and discerning collectors.
