

For a transfer at the Airport in Frankfurt intended exclusively to change to an international flight, a permit to carry weapons in the accompanying luggage is not necessary if the transit-area will not be left.

A permit to import weapons is required if an actual entry into the Federal Republic of Germany takes place of an invitation to a hunt or sport-shooting event (but also if temporary the transit-area will be left to reach another flight after having been through customs and passport checks and recheck with the weapon in a separate airline-terminal).

- **HUNTING EQUIPMENT AND TROPHIES**  
Each license holder is allowed to carry an additional free baggage allowance of 10KG over and above the normal baggage allowance for the class of service paid. NOTE: The license has to be produced at check-in. Normal excess baggage rates apply if exceeding 10kg.

Per license holder and weapon, a maximum of 80 bullets is allowed provided that it's securely transported in a weapon case, allowed as checked luggage only, and the ammunition has to be separated from the rifle.
