Details:

Another classic Geoff Slee design, the Classic Sporter is the ideal base for a semi-custom & custom built hunting rifle. The slender, open grip promotes quicker shouldering & target acquisition as well as preventing fingers from smacking the rear of the trigger guard under heavy recoil. Comb height allows good support for scoped rifles whilst still being suitable for open sighted rifles. The shadow-line cheekpiece and attractive lines of this rifle make this stock a great choice. This stock is of Magnum proportions, so suitable for the larger CZ550 Magnum rifles. Inletted as standard for factory barrel channel and F block etc. unless otherwise requested.
