

Double Express Safari

FRANCOTTE AUGUSTE

Rifles

Category : C

Caliber : 500-465 N.E

Auguste FRANCOTTE in Liège built that very fine big game double rifle for **LIEN CHAPUS CALLENS**, in Paris.

The big Anson forged boxlock action uses a Purdey double sliding bolts with a Greener transverse third grip.

The first trigger is articulated and the safety is of non-automatic pattern.

The best quality 26" chopper lump barrels are chambered for the potent **500-465 3½" H&H NE** and bear a two leaves express sight lying on a short rib and regulated on a caterpillar silver bead fitted on molded front sight short ramp with protector.

The classic 14½"LOP stock is made of very nice French walnut, with a beaded oval cheek piece and leather covered butt pad, while the forend is a splinter short one.

The light engraving is perfectly done and the original slightly faded color-casehardening takes a nice gray shade.

That big double rifle weights 10lbs 2oz, its functions flawlessly and remains in perfect condition. It must be noticed the impeccable regulating of the barrels that print **four fast shots within 2" at 60 yards !**

Price (€) : on application

Reference : RE-004
