

## GAME TRACKERS AFRICA - ONDJAMBA SAFARIS – SOUTH AFRICA

### Griqua Safari Area – Southern Kalahari

.. operates various concessions across South Africa providing us with flexibility to meet different client needs. This allows us to tailor your safari to ensure the optimum experience and maximum time in the veld finding the right balance – “Live the African Legacy!”

We are excited about the latest addition to our safari area options – “beyond hunting” - for families and friends or traditional hunters who is in need of a different experience. This is a change to the touch and feel of your traditional safari, although the ingredients are the same, just a combination of luxury, family activities and hunting in one base camp. We are proud to introduce our Griqua concession to you with a tailored safari for individual hunters/ hunter groups, families and family groups. Families will be hosted separately or together in private family accommodation with private luxury rooms and living areas.

Our Griqua – Northern Cape Concession on the edge of the southern Kalahari Desert to the North and the Great Karoo to the South, is the secluded hidden jewel of Central South Africa – waiting on you - ready to knock your socks off! This pristine 30 000 acres oasis getaway conservancy includes more than 22 000 acres hunting area, 120 miles west of Kimberley, the “Diamond City”, far from the hustle and bustle.

This is an ideal opportunity for the wildlife enthusiast looking for a family vacation to view game, relax in style, take part in a variety of outdoor activities, indulge in photography, a traditional hunt, and for the family hunt enthusiasts, you have found the spot for a traditional hunting experience with an edge....! You will experience comfort and style off the beaten path exceeding your expectations.

#### What can you expect apart from a normal hunting safari?

Our Griqua concession host a vast number of white rhino who are nationally and in Africa under severe threat and at the current rate of poaching and skewed sex ratios, on the road to extinction. Here you will find that funds generated through hunting of other healthy game populations are subsidising the preservation of the white rhino

Here guests will have the opportunity to have an up close and personal encounter with rhinos, you will be educated on this important specie, narrowly survived extinction before, and the role we together with our clients are playing in their continuing struggle for survival. Bar the security and safety measures in place to keep rhino safe and poachers out. This concession is on a pristine stretch where the Savanna and Nama-Karoo biomes meet, the habitat rhinos would have roamed for millennia.

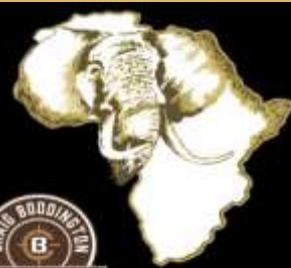

Some food for thought - The Conservation project - Adopt a rhino is in the process to be rolled out and more information will follow in due cause. This opportunity will be made available exclusively to hunters and their families/companions who have their tracks in the soil next to that of a rhino in this secluded area.

This is a hunting area with a difference! At this pristine stylish concession, you will experience the close relationship between hunting and conservation first hand where you will allow yourself to take a step back in time and explore the wild ancestral hunting grounds of the past. This concession hosts a variety of plains game species including springbuck, zebra, oryx (gemsbuck), kudu, wildebeests, sable, roan antelope and boasts in excess of 300 free ranging Cape buffalo, one of Africa’s famous Big 5.

The Griqua Concession provides for excellent bow hunting experiences with ergonomic designed hides and one equipped with a camera allowing clients to real time stream their experiences.

**YOU WILL FIND IT SO QUIET – YOU WILL BE ABLE TO HEAR YOURSELF THINK**

After a hard day's hunting, you can retire to luxury 5 star accommodation. This is a gem in the wildest regions of Southern Africa where you will be able to listen to tales of exceptional hunts and create your own memories, continuing the traditions of one of Africa's most magnificent hunting grounds.
