

Method 5

For Pigs, Hippopotami

- Rank on the length of the longest tusk.
1. Measure the length of the two longest tusks on the outer curve from the base to the tip (A–B). Do not card off.
 2. Measure the circumference of each of the longest tusks at the largest place at right angles to the axis of the tusk (C).

[Carding off refers to the squaring off of either end of the tusk should a piece be missing or jagged. The result will be a measurement starting where the tusk might have been. Rowland Ward’s policy is to measure only what exists so should the lower edge of the tusk be jagged or broken, the measurement must begin where the tusk begins.]

Length of tusk (A–B)	Right	Left
Circumference of tusk (C)	Right	Left

*To Be Filled Out by Measurer:

Species _____ Date Measured ____/____/____ (DD/MM/YYYY)

*Measurer’s Information: (Please print if handwritten.)

First _____ Last _____ Country _____

Tel. (INT) (____) _____ Email _____

Signature _____

*To Be Filled Out by Owner of Trophy:

Country _____ Date Shot ____/____/____ (DD/MM/YYYY)

Nearest town/Area _____ *Enclosed area: Yes No
