37140	7mm-08 Rem	4	Alloy Steel / Satin Blued	American Walnut	16.50"	35.50"	6 lb.	12.50"	1:8.5" RH	\$1279.00	Spec Sheet ▶ Buy Now ▶ Available

Non-rotating, Mauser-type controlled round feed extractor is among the most positive case extraction systems ever invented, and features a fixed blade-type ejector that positively ejects empty cases as the bolt is moved fully rearward.

Three-position safety is easily accessible and allows the shooter to lock the bolt or to load and unload the rifle with the safety engaged.

Integral scope mounts, machined directly on the solid-steel receiver, provide a stable mounting surface for included scope rings, eliminating a potential source of looseness and inaccuracy in the field.

Hinged, solid-steel floorplate for easy unloading without having to chamber each cartridge. Features an engraved Ruger logo and patented latch that is flush with the trigger guard to avoid accidental dumping of cartridges.

Ergonomically pleasing stock has rounded contours along the barrel, on the bottom of the stock and on top of the pistol grip and wrap-around checkering on grip and forend.

The LC6™ trigger features smooth, crisp performance right out of the box for increased accuracy on the range or in the field.

Our lightest Hawkeye® rifle weighing 6.2 lbs. And under.

Cold hammer-forged barrel results in ultra-precise rifling that provides exceptional accuracy and longevity.

Rugged, one-piece, stainless steel bolt. Also includes: studs for mounting sling swivels.

Features listed above are available on all standard models, but may not appear on Distributor Exclusive models. See individual spec sheets for model specific features.
