HIDE DESCRIPTION

Allows one additional round in the magazine for Ruger M77 rifles chambered in cartridges such as .375 Ruger, .416 Ruger, all standard-length belted Magnum i.e., 7mm Remington Mag, .300 Win Mag, .338 Win Mag and .458 Win Mag.

This floor plate uses all your existing factory parts and is machined from solid 303 stainless steel. Floor plate features an ergonomic shape that allows for a comfortable all-day carry. This has become a standard accessory for Alaskan guides and hunters.

M77 Magnum floor plate drop box
Posted by Bill Dellinger on 28th Jan 2025

Shipped quickly! Installed with no fitting required on my 375 Ruger African. Feeds perfectly no matter how fast and hard I run the bolt. Mine came matte stainless, I only wish they made a polished blued one to match my African. Awesome product, never knew that extra round in a DG Rifle could just save your life one day.

Very easy installation. Typical Alaska Arms quality. Floor plate does allow for four rounds of .375 Ruger rounds in the magazine. Shipped and received very quickly, USPS Priority Mail. Thank you.

Ruger M77 extended drop plate.

Purchased 2 of these; 1 for a Alaskan and 1 for a African model. Both fit perfect, no mods required. Quality product and fast shipping. Will purchase more of these for my other Ruger rifles.

RUGER EXTRA ROUND FLOOR PLATE-STANDARD MAGNUM CALIBERS
Posted by Ronald A Berry on 23rd Jan 2024

Nice matte stainless finish, matches factory stainless steel finish, easy to swap for factory M77 Hawkeye floor plate. Easily allows 4 down with room to spare, for .375 or .416 Ruger or any wildcat so based. Ditto the .458 Winchester and other standard magnums based on the H&H belted case. Web site worked flawlessly for ordering and the USPS delivered from Alaska to Kentucky without a hitch. I could not be happier with the product and service. Beauty and quality all around.
