

The Grand Safari

The SCI Grand Safari in .404 Jeffery

Built for The 2018 Safari Club International Convention, this rifle represents the ultimate blend of classic gunmaking, performance, and artistry. We took our usual Classic Safari Rifle concept and went nuts! The half-octagonal barrel, rear sight base, and scope bases were all custom made in-house. We took our "Miller" stock and added cross-bolts, a drop-box magazine, grip-cap and a Pachmayr recoil pad in classic red for good measure. Swarovski Optik provided their class-leading Z8i 1-8x24 Scope. Thanks to TL Technologies, Douglas Barrels, Talley Mfg., Trigger Tech, Sunny Hill, and NECG for making the premium quality components used in this one of a kind build! The excellent engraving you see on this rifle is the work of our friend Mike Crumling of [Mike's Custom Weaponry LLC](#).

| | |

| Price: | |

After 30+ years of custom gun-making we've settled into the key rifle models you see here on this site. But we are first and foremost a custom builder. So our options list is limited only by your imagination. More or less. We want to build the best rifle possible for you. So if you've got a wild idea or a very specific way you'd like or need your rifle to be built let us know. Give us a call or send us an email and we'll discuss how we can best suit your needs!
