## Trooper Jacket

Bush Poplin | Khaki or Pewter

A RE-INTRODUCTION OF THE CLASSIC.

Based closely on the paratrooper jacket used during the French Indo-China Campaign, this coat is an oversized conglomeration of pockets and snaps – every one of them useful. Generous design allowed for freedom of movement as troopers descended from the sky. Epaulettes have working buttons. Inside you'll find security pockets for documents, gear and the removeable hood. Closure is snap-flap over brass zipper, with adjustable waist, hips and cuffs with no-leak gussets. The six snaps flanking the bottom of the zipper are vestiges of its paratrooping days; straps from the chute pack would come between the legs to prevent the jacket from ballooning over the face and head. As part of our new Legacy collection, this jacket today makes for a great traveling or field companion. 100% bush poplin with brass snaps, horn buttons and YKK brass zip.

Offered in both Khaki and Pewter.
