

South African Safari for Two – Travel to the “Dark Continent” for a seven day African Safari with White Lion Safaris, South Africa’s premier big game outfitter. You and your travel partner will be treated to some of the finest hunting and luxury accommodations in the southern hemisphere while being taken care of by professional huntsmen and lodge staff. Owner Ricus de Villiers and his wife Nelia will personally ensure that your South African experience is truly unforgettable.

South Africa is home to eight biomes that flow together in breathtaking ambiance, from lush green thickets and sweet grassland to rocky outcrops and the green Kalahari veldt. White Lion’s main hunting camp is situated in the center of the country, where four of the major biomes meet. This creates a perfect habitat for the 32 predominant plains game species of each of these biomes to thrive in.

You will be accompanied by an excellent team of handpicked professional hunters and a guide best suited to meet your needs. Your professional hunter will strive to ensure that you spot, stalk and harvest the best trophies possible. A recovery team and a trained skinner will be available to collect and prep your trophies in the field.
