Description

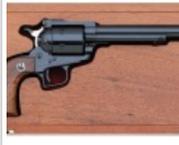

Terms and conditions

Description:

serial #G2598769, 375 H&H Mag, 24" barrel with a bright excellent bore. The metal surfaces retain about 97-98% original rust blue with a light handling mark on the right side of the receiver, a touch of silvering at the muzzles, and some light operational wear on the races. The bolt body is nicely jeweled with a little operational wear at the base, the bolt handle showing some light wear to the blue. The checkered pistolgrip walnut stock is in very good plus condition with a few light dings and handling marks, and some flattened points of checkering. The stock features a factory sling swivel on the toeline, a factory solid recoil pad, lightly floral engraved dual recoil bolts, and a right-side cheekpiece. The rifle is sighted with a hooded ramped bead front sight and an adjustable express-style rear sight, the receiver is factory drilled and tapped, the bolt features the pre '64 controlled feed claw extractor, and a factory sling stud is on the barrel. Included is the original box, end labeled and numbered to the gun, the manual, and a pair of Weaver-style bases. A fine Winchester Model 70 used to great effect on a pair of Cape Buffalo and numerous plains game by the previous owner. (14A11736-1) (MODEPN) (1000/1500)
