

***World Hunting Award
Field Journal***

Name: _____ Member #: _____

Introduction to the World Hunting Awards Program

The World Hunting Award Program consists of many different awards that was designed to help SCI Members celebrate their hunting achievements. To qualify for the various awards available, each active member will need to submit their animals to the SCI Record Book Department. You can do so by submitting the measurements of each animal taken by an Official SCI Measurer or by submitting a photo entry of each animal. For instructions and information on submitting an animal into the Record Book please contact the Record Book Department 520-620-1220 or visit our website at www.safariclub.org

SCI Inner Circles: This award program offers a variety of leveled awards for any type of big game hunter. Inner Circle awards contain 5 different levels per award: Copper, Bronze, Silver, Gold, and Diamond levels.

SCI Milestone Awards®: Milestone Awards do not have levels. There is only one way to achieve a Milestone Award and that is to obtain all the required animals for that award.

SCI Continental Awards: This award program was designed to challenge those hunters who want to travel to all the different continents and hunt.

SCI Pinnacle of Achievement Awards, Zenith Award and Crowning Achievement Award: This award program takes into account how many Inner Circles and Milestone Awards you have achieved. The more Inner Circles and Milestone Awards you achieve the higher you progress in these awards.

SCI World Hunting Award Ring: The World Hunting Award Ring has been achieved by an exclusive group of SCI members who have excelled in the World Hunting Awards program. If a member reaches the World Hunting Award ring they are presented a complimentary custom-crafted ring made of 14-karat white or yellow gold, onyx and 21 point diamonds with six stones.

SCI World Conservation and Hunting Award: This Award is the highest achievement an SCI member can receive in the World Hunting Awards Program. Less than 60 SCI members to date have received this prestigious award.

SCI Continental Awards

African 15

MINIMUM REQUIREMENTS AND ELIGIBLE CATEGORIES

Required 12 species and 1 of the Africa Big Five OR Required 15 species and NO Africa Big Five. Rifle & Bow requirements are the same

Disclaimer: The North America 12 and/or Africa 15 were converted to Continental Awards effective 5/31/2012. Anyone who began participating in the World Hunting Awards prior to 5/31/2012 can still purchase the North America 12 and/or Africa 15 as Milestones to apply to their cumulative awards. Participation meaning, purchasing any World Hunting Award Milestone or Inner Circle prior to 5/31/2012. As of 08/10/2016, for Cumulative Awards (Pinnacle of Achievement to World Conservation and Hunting Award), the RBC approved that 2 Continental Awards may be used to substitute for 1 Milestone Award. A maximum of 4 Continental Awards may be used to substitute for 2 Milestone Awards.

Notes:

SCI Record Book thanks The Wildlife Gallery for their contribution in the production of the World Hunting Award Field Journal

There is a slightly different entry procedure for SCI Animals of Africa. In most other Inner Circles, you may enter any combination of eligible animals listed to arrive at the required minimum number. For Animals of Africa, you must have taken the specific animals listed in each column to qualify for that particular Inner Circle level. For example: to enter at the Bronze level, 26 animals are required. Under the column heading "Bronze" you will find the animals grouped into categories. The number in the Bronze column tells you how many varieties in that particular group are required. You must have all the 26 animals listed in that column to qualify for the Bronze Circle.

*From Namibia, South Africa or Zimbabwe under CITES quota; **Under certain conditions; ***May be darted; ****From native habitat in country of origin

Note: Nubian ibex and aoudad (Barbary sheep) are not required but, if taken in native habitat, can substitute for any other animal. Water chevrotin is not required but can be substituted for any pygmy antelope, dik-dik, or duiker

Notes:

Introduction – Inner Circles

The World Hunting Awards Program was developed as a fun way for SCI members to plan and track their hunting achievements. The program was designed to build and pay for the awards as you hunt and achieve the different levels.

1 COPPER

The Copper level is the first level that members achieve on an Inner Circle. When this is achieved and paid for, you will receive a 10x8 walnut plaque. There is an engraved brass plate displaying the SCI logo and award name (example: Ibex of the World) with your name proudly engraved below the program name. Below the name plate are 4 successive blank brass plates, with the Copper level plate engraved with the year achieved on top and as you achieved and purchase additional levels you add to your inner circle plaque.

2 BRONZE

3 SILVER

4 GOLD

For the additional levels of Bronze, Silver, Gold you will receive the black engraved plate once that level is achieved and purchased, and then you will add to your existing plaque.

5 DIAMOND

Once the Diamond level is achieved and paid for, you get to choose from one of the many economy bronze animal base that holds your Inner Circle plaque showing the Diamond plate on the base.

	LEVEL	LISTING FEE	ENTRY FEE
1	COPPER	\$125.00	\$250.00
2	BRONZE	\$125.00	\$250.00
3	SILVER	\$125.00	\$250.00
4	GOLD	\$125.00	\$250.00
5	DIAMOND	\$125.00	\$250.00
	TOTAL	\$625.00	\$1250.00

Design Your SCI World Hunting Award.

INNER CIRCLE ECONOMY BRONZES

Now you can reflect your personal taste in designing your award for display in your trophy room, home, or office. Each one of your successful hunts is a memorable, cherished experience. Usually, a hunt for one particular animal will be remembered above the rest as a truly outstanding adventure. Once you are qualified and entered into one of SCI's World Hunting Award programs, you can choose a bronze base to represent your finest hunt.

These anatomically detailed sculptures are admired for their elegance and timeless beauty that captures wildlife at its best. Each of these delicate works of art is individually cast. Rendered to the specification of the sculptor, each piece surmounts showroom quality.

The bronze base is automatically awarded at the Diamond Level of each Inner Circle or after entering ten Milestones. You can receive the base at any level of an award program by paying the difference equivalent of the Diamond Level entry fee or ten Milestones fees in advance. As you qualify for higher levels in this particular award program, the engraved plates would be furnished without any further entry fees.

You can choose your sculpture from these fine pieces shown or call the Record Book Department at the SCI Headquarters in Tucson (520) 620-1220, for other available sculptures.

Of all the hunting awards available in SCI, many members find the WHA's to be the most fun to achieve. For some, the WHA's provide a handy road map for scheduling certain hunts along their pathways to adventure. For others, the WHA's represent validation of their commitment to a group or grouping of animals that they particularly want to honor. Sculptors Fred Boyer and John Tolmay bronze enhance any trophy room. 🐾
