FEATURES

Now with two modes of optical image stabilization that enhances the users ability to find wild game & targets while glassing off hand. The Optical Image Stabilization in both modes electronically cancels out shaking and vibration.

Featuring HDX-Glass to enhance light transmission, resolution, and definition afield.

Selectable modes: Scan Mode is designed specifically for scanning and gridding terrain. Target Mode is designed specifically for locking in on wild game & targets, Target mode increases stability up to 50% allowing you to successfully identify targets

DETAILS

SIG SAUER ELECTRO-OPTICS' ZULU6 HDX binoculars create a groundbreaking new paradigm in hand-held glassing solutions, utilizing SIG SAUER'S proprietary OIS™ Optical Image Stabilization technology and HDX lenses that deliver a full-resolution image without a tripod.

OIS Scan Mode delivers the perfect solution for general observation, whether you're gridding hillsides or trying to locate a specific target. The all-new OIS Target Mode increases stability up to 50% more, allowing the user to stay locked on target with ease.

Updated with SIG SAUER'S HDX glass lenses, the ZULU6 HDX produces enhanced light transmission, resolution, and definition for unparalleled optical clarity. Available in 10x, 12x, 16x, and 20x magnification, the ZULU6 HDX offers a full range of prescriptions to match a variety of environments and applications, while the IPX7 waterproof rating keeps your optic protected from the elements.

Experience a new era of glassing systems with the ZULU6 HDX binoculars from SIG SAUER.

Not just for hunters

I bought the Zulu6 HDX 10x30 as an all-around day and some nighttime binocular. The IPX7 waterproof rating means that I can use the binocular under all weather conditions without concern about damage. As I get older, I experience increasing handshake. The Zulu6 HDX takes care of this with its two stage [Read more](#)
